

 **SATOSHI**  
**BLOCK DOJO** The Bitcoin<sup>SV</sup> Incubator

---

# Showcase

Cohort One 2022

A hand is shown reaching out towards a glowing blue cube and a network of nodes, symbolizing technology and innovation. The background is dark blue with various glowing elements like a cube, a network of nodes, and a grid of dots.

**Our goal is to take  
small companies and  
help turn them into  
the next big thing;  
companies with  
amazing entrepreneurs  
who want to change  
the world.**

The Dojo is a 12-week incubator programme, where we select up to 10 early-stage companies to help validate their business ideas. We ensure they are providing a real-world solution, expand their network through world-class mentors and provide technical support to buildout their MVP on the BSV blockchain. At the end of the 12-week intensive programme, we then showcase the Cohort to our investor community, with many of them benefiting from gaining 'Gold-Dust' SEIS shares.

Ideate, create  
and deploy.

# Buzzmint

NFT & Tokens

B2B2C

## About

Buzzmint provides a 'white-label' platform for Brands and premium content creators to create huge value from existing legacy content, new campaigns to ideate, create and deploy NTF & Token projects of real utility and purpose.

# CosmosX

Metaverse

B2C

## About

CosmosX, is a space-themed metaverse open world, allowing users to interact, earn rewards and participate in new projects together. They bring users, creators and investors together in a single platform. CosmosX will incentivise users to be part of the network and allow creators to build and sell 3D metaverse assets for use in the platform. Advanced users can build and run their own AI and automation, facilitated by NFT ownership and smart contracts. CosmosX will also include a native token, 3D NFT marketplace, and multiple X-to-earn systems, to further encourage users to join the platform

# Ninja Punk Girls

NFT

B2C

## About

NPG is an NFT card game based on Top Trumps. Players choose a card to battle with and then determine their own stakes to play each game to win their opponents' card! Gameplay is simple, quick and fun, and can be played solo or in teams and on mobile or online. To maintain the players interest, the game refreshes every six months, with new characters, weapons and accessories.
